

Dear Brothers and Sisters,

As many of you know I have been working with people in need of serious help out in Haiti. Whether it's Spiritual, Medical or just life necessities like education and food for the people. I would like to introduce you to this young woman Widline Terville. She is 26 years old with a serious medical condition as you can see in the pictures. On top of that she has two kids the oldest one is 6 years old and 2 years old is the younger child. She has been trying since 2011 to get medical assistance but was not able to get any. What happened was she was playing at the playground with some other kids and they had an incident which caused her to fall & twist her ankle. The next day the swelling was increasing quickly and still till this day. I have been in touch with her trying to do my best to help her relocate to maybe find assistance but that wasn't successful as well. She is single mom and has been dealing with the pain getting significantly worse. I would like for my Brothers and Sisters in Christ to see if you guys can reach out to anyone who would have an open heart & willing to help with the situation. She is young gal 26 years old with two kids and it would be a blessing if we can help her find some medical assistance and save her life.

If you have any questions or wanting to contact me regarding how you can help or any other information you can reach me at 507-319-3022 or by email
